CORPORATE PHILOSOPHY

Thanks to the big contribution of our dedicated staffs, our company has been winning customers' trust. We utilize our qualified human resources to connect Vietnamese partners with overseas ones. Sunwa Technos has engaged in the distribution of industrial machinery, electric motors and control instruments since its foundation in 1949. From post-war reconstruction of damaged industrial facilities until today, our business has been growing including distribution of electrical machinery, electronic parts and computer systems for automated production facilities (FA systems). As a technology trading company, our customer-focused approach, world class engineering and technical information services have helped our clients achieve value-added growth and profitability.

Talent Nurture, Company Development, Social Responsibility

We strictly follow customer first principle to provide reasonably cost-effective necessary functions as well as providing the best products and services

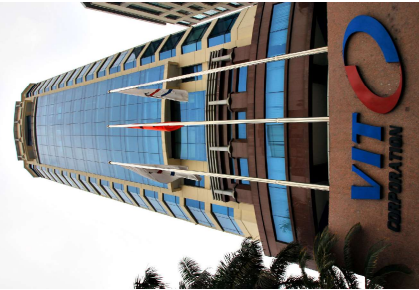

We embrace the most essential demand and the most advanced technology to bring about better value based on our own technical capability

We utilize our global network to create high value added services for customers, research for excellent products and disseminate information

Our overseas business products

- Harness
- Cable
- Processed resin product
- Press metal sheet
- Die casting
- Machining (NC machining)
- Die cutting
- LCD module
- Electronic part, PWM, PFC motor
- Reducer equipment (best sink)
- Circuit board unit (EMS)
- Motor, reactor, air-ssand grill (for railway applications)

Medical and nursing related products

- Robots for medical and biological industry
- Equipment for belt drive system in the medical bed

(Robot used in the medical and biological industry MOTO-MAN-BMDA3)

Products of Yaskawa Electric

- Noise filter for Earth Line (Manufacturer: Groundwhite Inc.)
